**Narrative**

Bend Fire Department was dispatched to a reported structure fire, first arriving crews found a fully involved single family residence. The fire was fought defensively, from the exterior of the dwelling, due to the degree of fire involvement. The residence was unoccupied and was in the process of being renovated at the time of the fire. Mutual aid was provided by COID Engines 320 and 634 to patrol for any spot fires, due to the heavily wooded area. The Bend Fire Department would like to remind the community that home fire safety is up to you! Put safety first when performing work around your home and property - make sure cigarettes are properly disposed of in a non-combustible ashtray (never on the ground), ensure oily rags are placed in water to soak, and use caution performing any work such as welding or grinding that produces sparks.
